–

We roast coffee every day in our Kemptown roastery, and we remain Brighton's oldest and only organic coffee roaster. The roastery team travel around the world to find the finest coffee, and we import directly into Kemptown where we roast for our own cafes, for wholesale customers and we are available exclusively in Selfridges.

We offer two very different coffees every day here at the cafe, a single estate and one of our blends. Please see the board on the front desk or ask your waiter for details and tasting notes.
